Programming / Scripting Languages

JavaScript
TypeScript
Python
Go
Bash
SQL

DevOps & Automation

CI/CD
Docker
Kubernetes
Terraform
Ansible
Jenkins

Cloud Platforms

AWS
GCP

Testing

Jest
Cypress
Playwright
React Testing Library

Frameworks

React
Express
Django
Flask
Apache Kafka
Next.js

Summary

I am a software engineer and DevOps practitioner who ships dependable software quickly. I pick up new stacks fast, care about tests and automation, and have led and worked within agile teams from first requirements to running things in production.

Experience

Fernleaf Labs — 01/2024 - Present

Co-Founder

Co-founded Fernleaf Labs, a small company making scheduling software for community sports clubs.

- Building the booking product used by 40 clubs across the north of England every week of the season.
- Set up the deploy pipeline and on-call rota.

Northwind Finance — 10/2022 - 04/2024

Senior Software Engineer (Contractor)

Worked across two product teams on regulated savings products, and mentored junior engineers.

- Built the journey framework that every new savings product now starts from, along with its configuration rules and shared design system components.
- Mentored three junior engineers through their first year.
- Stepped into leading the team for six months while the lead was away, keeping the release on track.

Example Health — 11/2021 - 07/2022

Senior DevOps Engineer (Contractor)

- Moved a secure file transfer platform from an on-premises OpenShift cluster to Amazon EKS using Terraform.
- Rebuilt the monitoring so the team was paged for the right things.

Spring / Spring Boot

Databases

PostgreSQL
MySQL
Redis
DynamoDB

Methodologies

Agile
Scrum
Test-Driven Development (TDD)
Behaviour-Driven Development (BDD)

Operating Systems

Linux
macOS

Sample Retail — 05/2019 - 11/2021
Technical Lead

- Formed a new team for customer operations problems.
- Awarded Engineer of the Year 2020.
- Led the move of order emails from a marketing platform to a purpose-built service on Amazon SES.

Brightside Studio — 08/2016 - 05/2019
Software Engineer

- Built client websites and the studio's first design system.
- Ran the weekly release.

Education

The Open University 01/2016 - 01/2022
Bachelor of Science (BSc) (Part-time) Mathematics and Physics

University of Leeds 09/2012 - 06/2015
Bachelor of Science (BSc) Psychology

Awards

Engineer of the Year
Sample Retail
